KAPSUN[®].com Air Coolers

Refreshing Air In Your Environment !!!

A Complete Range of Industrial & Commercial Air Coolers

Your Reliable Solution For Cooling & Global Warming

Why Air Coolers?

- ✎ It is the most prominent product in market for cooling large areas.
- ✎ Provides ideal cooling with water; a complete natural process.
- ✎ There is no emission of harmful gasses or hot air while working of the Air Cooler.
- ✎ Air Coolers has the best Power consumption to cooling ratio amongst any other cooling products. (Air Conditioner / Fan / Mist Fan)
- ✎ Air Coolers enhances the air circulation while adding ample amount of Oxygen in your Environment.
- ✎ Air Coolers are comparatively easy to maintain, transport and fix.
- ✎ Due to water cooled breeze, Air Coolers provide fresh air that refreshes any person enjoying the breeze.
- ✎ A relatively economical solution for all yours cooling problems.

Why KAPSUN Air Coolers?

- ✎ Since, 15 years of R&D and experience, KAPSUN® has managed to design and manufacture the most efficient Air Cooler for the people.
- ✎ Only Air Cooler company worldwide to provide UNCONDITIONAL WARRANTY for 1200 DAYS on all parts of Air Cooler, except the cooling pad.
- ✎ KAPSUN® is empowered with its own R&D, manufacturing, marketing and distributor channeling unit which makes us a strong independent company. We strive for and understand the value of customer satisfaction, as they are the ones who have build this company.
- ✎ Even after years of relentless cooling, KAPSUN® Air Coolers will work at maximum capacity with bare minimum vibration and noise pollution just like day one. Proven & Tested by our most valuable customers.
- ✎ KAPSUN® team keeps on innovating and upgrading the Air Coolers for maximum satisfaction of our customers.
- ✎ With 35+ Countries whom we have exported to, KAPSUN® has become one of the Global leaders in Air Coolers, with a brand value like none other.

About Us.

KAPSUN® is a 15 years old proud & self-reliant company with its roots from Ahmedabad & Vapi, INDIA. It all started with a concept of Industrial & Commercial cooling solution and the idea was Evaporative Air Cooler. Being the first Leaders to venture this plan, we took on the responsibility to provide the people with the best Industrial / Commercial Air Coolers around the globe. Closest to perfection is the answer and what we strive for. Best Performance, Easy Adaptability, Impeccable Durability & Economical in every sense is what we stand and deliver for.

With In-house manufacturing unit and a team of 350+, we have the strength to manufacture 550~700 Air Coolers per day while maintaining the quality simultaneously. At the same time, we are strengthening our unit with new machineries and infrastructure to take our manufacturing capacity to 1500 air coolers per day.

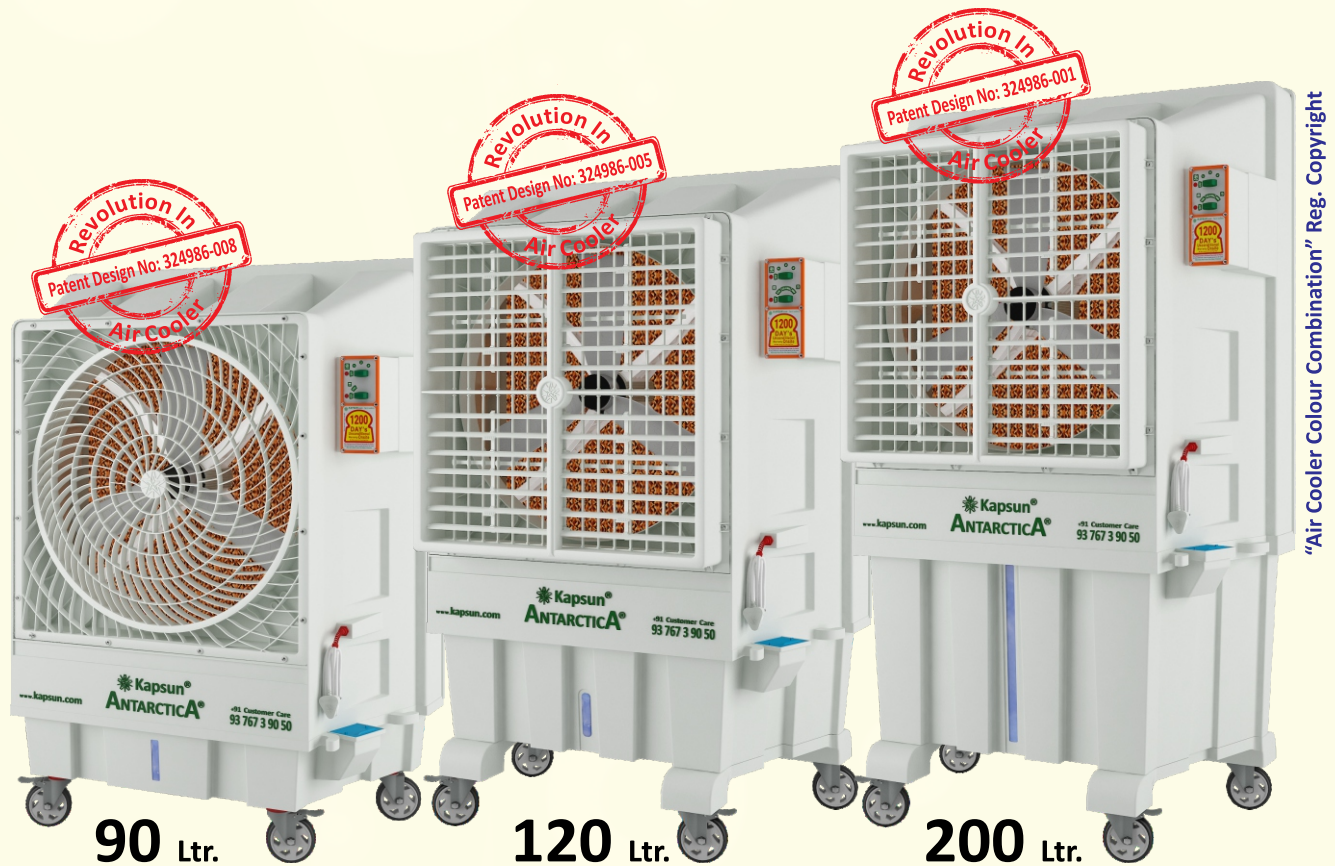

KAPSUN® is the leading Industrial & Commercial Air cooler brand in the India and one of the best around the globe with 35+ countries that we have exported to. We have registered 12 Patented Design from our cooler that provides a legitimacy of our Air Coolers in the market. With an unconditional warranty on our coolers, we want to show our valuable customers just how sturdy and reliable our products are. We want to connect to more people around the world and deliver them the best cooling possible.

Only company in the world to provide
1200 days Unconditional Warranty on Air Coolers.
